

REQUISITE CHEMICALS PVT. LTD.**RCT-12
(N-DODECYL MERCAPTAN)****TECHNICAL DATA SHEET**

RCT-12, n-Dodecyl Mercaptan, is widely used as a chain transfer agent in addition polymerization reactions of polymers like rubber (neoprene) and plastics (Acrylonitrile butadiene styrene, Polymethylmethacrylate, Polyvinylacetate etc.)

The specifications of our product, RCT-12, are as follows:

Sr. No	Test parameter		Specification
1	Appearance		Colourless liquid
2	Odour		Characteristic
3	Density at 25 ⁰ C		0.85gm/ml (+/- 0.02)
4	% Assay	By chemical method	Min 98.5%
		By G.C.	Min 98.5%
